University of Missouri System Undergraduate Financial Aid Summary Report FY2011-FY2015 (Non-Resident Undergraduates)

Executive Summary

The Undergraduate Financial Aid Summary Report includes undergraduate financial aid distribution patterns for the University Missouri System and the four campuses from fiscal year 2010/1 (FY11) through fiscal year 2011/5 (FY15). In the first part of this report nine questions are addressed at the UM System level:

- 1. How many students received aid and what type of aidevæsived?
- 2. Has grant aid kept **pa** with increases in tuition and required fees?
- 3. How has the distribution of institutional gift aid changed over the past five years?
- 4. How has the distribution of PLUS loans changed over the past five years?
- 5. What percent of tuition and required fees is met by grant aid?
- 6. How has the number of aid recipients with need changed by income level?
- 7. How do financial aid packages vary by income level
- 8. For students that have need, what is the average amount of unmet financial need?
- 9. Can families afford to pay the expected family contribution?

Systemwide trends highlighted include:

Total aid to nonresidentstudents with need is awarded from a combination of aid based on merit and aid based on network the pastive years, there has been a 31.7% increase in the number of notation that there are many montests with need due to the 41% increase in the enrollment of resident, fulltime, degree seeking students over the past five years (Figure 1.1). However, an equally significant reason for the increase in students with is the fact that tuition required fees have increased 19.3 and the overall cost to atternot tuition has increased 12.2% during the same time period (Figure In.3) her words, many students that otherwise would not have had a financial need became needy.

There is an increasing petween tuition and required fees and the average graid awarded tonon-residentundergraduates ver the past five yea(sigure 1.2).

The number of institutional grants awarded on need increased 523 in FY11 to 803 in FY15(Table 1.1).

Missouri nonresident undergraduate students in the lower income categories have the highest grant daias a percentage of tuition drequired fees (Table 1.2).

The volume of Parent Loans for Undergraduate Students (PLUS) loans sed from FY11 to FY15 for both nonresident students with and without financial

need. In FY11, 1,015 pents borrowed an average \$17,000

The contextual basis of financial aid distribution

Roughly27% of nonresident undergraduates attending the University of Missoyri pa the entire cost of attendance outpocket. The majority of noresidentstudents receive some type of financial assistance to attend the University in the form of grants, scholarships, work study or loans. In addition, financial assistance comes with variety of sources including the state and federal governments, profit and of in-organizations, and the University (institutional gift aid). In addition, a significant amount of financial aid that is distributed is based on id)t ba/7j -0.003 Tc ed i -6(d)-4()-10(a)4(6[2(d e)-2(t)

Foremost, a BUDGETED COST OF ATTENDANCE (COA) is determined for every student that completes a FAFSA. The COA varies by student and is based on factors such as residency status, load status (full or-tipante), and living arrangements (on or off-campus). Next the amount that the family is expected to contribute to cover the COA is determined based on several factors, including the family's adjusted nor one at student's financial need is determined by subtracting the EXPECTED FAMILY CONTRIBUTION from the budgeted COA. If the calculated value of FINANCIAL NEED is positive, the student is eligible to receive placested assistance such as Pell grants, college work study and need based loans. A student's REMAINING NEED is determined after subtracting GRANT AID (aid that does not have to be repaid) from the FINANCIAL NEED. After subtracting the remaining sources of financial aid (i.e. work

Section I

Systemwide Financial Aid Trends of Full-Time, DegreeSeeking NonResident Undergraduates from FY11 to FY15

PLEASE NOTE: The findings below highlight systemide trends at the University of Missouri.

1. How many nonresident students received aid and what type of aid was received?

The total number of fultime, degreeseeking norresident undergraduates steadily increased overhe past five years from 537 to 9,215, an increase of over With this increase in enrollmenthere has been 31.7% increase in the number with financial needfrom 2,404 in FY11 to 3,166 in FY5 (Figure 1.1).

2. Has grant aid kept pace with increases in tuitionand required fees?

Over the past five years tuition required fees increased 31% and the budgeted st of attendance increased 12% 2 while average grant aid increased 13%. The overall trend is that there is an imeasing gap between tuition required fees and the average grant aid awarded to no resident undergraduates (Figure 2).

3. How has the distribution of institutional gift aid changed over the past five years?

The number of nomesident undergraduates with need that received institutional gift aid significantly increased and the average amount of the institutional grants increased nearly \$700 since FY11. In FY11 there were 2,386 institutional grants awarded to students with need. The auge award was \$8,290. In FY15 there were 3,389 institutional grants awarded to students with need and where gree amount awarded was \$8,982 (Table 1.1).

4. How has the distribution of PLUS loans changed over the past five years?

The volume of Parent Loans for Undergraduate Students (PLUS) loansessed from FY11 to FY15 for both students with and without financial need. FY11, 1,015 paents borrowed on average \$,000 to meet their child's education expenses. Fixes later, nearly 1,100 pares borrowed approximately \$19,900 to cover these expenses (Table 1.4).

5. What percent of tuition and required fees is met by grant aid?

Lower incomenon-residents have the most financial need and on average receive much more grant aid than higher incomedates. In FY11, grant aid covered nearly 75% of tuition and required fees for students with income less than \$20,000 \text{%nfb} \textit{7}\$ tudents with income between \$20,000 and \$40,000. By FY15, grant aid covered 677 tuition

and required fees for students with income less than \$20,000 and 65% for students with income between \$20,000 and \$40,000. For students at all incoming the less than \$20,000 and \$40,000. For students at all incoming the less than \$20,000 and \$40,000. For students at all incoming the less than \$20,000 and 65% for students with income less than \$20,000 and 65% for students with income less than \$20,000 and 65% for students with income less than \$20,000 and 65% for students with income less than \$20,000 and 65% for students with income less than \$20,000 and 65% for students with income less than \$20,000 and 65% for students with income less than \$20,000 and \$40,000.

6. How has the number of norresident aid recipients with need changed by income level?
