Overview

Admissions Overview	
Welcome to the IPEDS Admissions (ADM) survey component. The primary purpose of ADM is to collect basic information about the undergraduate selection process for entering first-time, degree/certificate-seeking students. This includes information about admissions considerations, admissions yields, and SAT and ACT test scores (if test scores are required for admission). ADM will be collected only from institutions that do not have an open admissions policy for entering first-time students.	
Recent changes	
The items in ADM were moved from the Institutional Characteristics component. There will be no change to the data items collected, only to the collection period in which the data are submitted. In previous collections, institutions selected from two reporting period options. Admissions data from the prior year could be provided if current year data were not available at the time of reporting. Beginning with the current Winter 2014-15 collection, all in stitutions must use the most recent Fall reporting period.
