

PeopleSoft Financials recently underwent an update

Open lab sessions and training available to support you.

PeopleSoft Financials is used for processing requisitions, travel and expenses and other finance related transactions. A December 2 update refreshed its look and feel.

The screenshot displays the PeopleSoft Financials user interface. On the left, there is a vertical navigation menu with icons for Home, My Profile, My Alerts, My Requests, My Approvals, My Transactions, My Reports, My Settings, and My Tools. The main content area features a header with the text "Welcome to PeopleSoft Financials" and a search bar. Below the header, there are several sections: "My Requests" with a list of items, "My Approvals" with a list of items, and "My Transactions" with a list of items. The interface is clean and modern, with a light blue and white color scheme.
